

TERMINIX OFFERS NEW SERVICES

MOSQUITO CONTROL & PEST CONTROL INSULATION

MOSQUITO CONTROL

Want to spend time in the evening outside with the kids at your backyard pool? Entertaining clients, family or friends? Having a barbeque or cookout? You'd like to, but mosquitoes and other biting insects would like to attend too. Consider the *MistAway*® solution.

With the touch of a button on a remote you can activate the system that will release an insecticide mist that will knock down mosquitoes and other biting insects around the perimeter of your home or business. You can also preset times to activate the system, giving you continuous control.

Call us and one of our experts will come to your home and professionally design a system customized for your living style. Let us install precision-engineered misting nozzles to stop mosquitoes at the source while preserving the beauty of your yard. Once installed, the system virtually disappears into the landscape.

Don't need anything elaborate? Call us for other mosquito control solutions.

Get a free no-obligation quote today.
